RJ45 SFP 100m Range

## RJ45 SFP 100m Range Gigabit

### Reliable, Compatible and Cost Effective.

Yamasaki S010 RJ45 Small Form Pluggable (SFP) transceiver modules are the perfect solution for connecting enterprise Gigabit Ethernet Switches to CAT5e cable. Yamasaki S010 RJ45 Small Form Pluggable transceivers are designed to provide instant hot pluggable gigabit copper ports for your switches, transferring data at speeds of up to 1.25 Gbps and capable of operating over distances of up to 100 meters. Compatible with CISCO® switches.

Yamasaki's SFP units fully comply with Multi-Sourcing Agreement (MSA). This compliance allows Yamasaki's SFP modules to be used on other MSA-compliant SFP platforms without any problems.

### FEATURES

- Hot-pluggable capability
- RJ45 connector
- CISCO® compatible
- SFP 20 pin interface
- 10/100/1000 Base-T operation in host systems with SGMII interface
- Up to 1.25Gb/s bi-directional data transfer
- 3.3V power supply
- Operating temperature range of 0 to 85°C
- Compliant with SFP MSA specification
- Compliant with IEEE 802.3
- Compliant with FCC47 CFR Part 15, Class B
- 1 Year Warranty

Note. Some Yamasaki fiber optic laser products can cause eye damage if used incorrectly. Please consult your instruction manual and store away from children. Specifications and descriptions are subject to change without prior notice. CISCO and all other registered trademarks are the property of their respective owners.
