

# Ideal 45-162 Buffer Tube Stripppper

**rapidconnect**  
BY ANDERSON

The Ideal 45-162 Buffer Tube Stripper is a specialized tool designed for precision stripping of buffer tubes in fibre optic cables. Engineered for accuracy and ease of use, this tool ensures clean and efficient removal of buffer tubes without damaging the delicate fibres inside.

### Application:

- Data Centres
- Telecommunication Networks
- Field Work: Perfect for on-site installations and repairs

### Features:

- Precision Stripping: Designed to strip buffer tubes accurately without nicking or damaging the fibres.
- Adjustable Blade: Allows for easy adjustment to accommodate different buffer tube diameters.
- Ergonomic Handle: Comfortable grip for prolonged use, reducing hand fatigue.
- Durable Construction: Made from high-quality materials for long-lasting performance.

### Technical Specifications:

- Cable Type Compatibility: Flat Drop Cables
- Blade Type: Replaceable Precision Blades
- Weight: 0.5 lbs (0.23 kg)
- Dimensions: 6.5 x 2 x 1 inches (16.5 x 5 x 2.5 cm)
