

rapidconnect® IET - PPS Insertion Extraction Tool

rapidconnect
BY ANDERSON

rapidconnect® Universal Stripper

rapidconnect® IET Extraction Tool (PPS) is specifically designed for LC connectors, crafted from glass-filled PPS (Polyphenylene Sulfide) to ensure exceptional durability and strength. This tool provides a reliable solution for the insertion and extraction of LC connectors in high-density environments, offering excellent performance even in demanding conditions.

Technical Specifications

- **Data Centres:** For managing high-density fiber optic installations.
- **Telecommunications:** Suitable for network maintenance and installation.
- **Enterprise Networks:** Ideal for use in server rooms and IT infrastructure.

Application:

- **Network Maintenance:** Suitable for use in data centres, telecommunications, and network maintenance.

Key Features

- **Ergonomic Design:** Glass-Filled PPS Construction, combines strength and lightweight properties for enhanced durability and ease of use.
- **Durable Construction:** Made from high-quality materials for long-lasting durability and reliable performance in the field.
- **High Resistance:** Offers resistance to chemicals, heat, and mechanical stress, suitable for various industrial applications.
